## *The 25th Annual Joint Colloquium*

Since 1983, three of the industry's leading international administrative institutions have cosponsored a series of joint colloquia covering significant topics in the field of international commercial arbitration.

And, each year, these organizations identify world-renowned international arbitrators and practitioners to present and discuss some of the prior year's most significant issues with attendees of this important event.

In recognition of the 25th anniversary of this prestigious gathering, a special program will chart the evolution of international alternative dispute resolution (ADR) as well as provide a forum for speculation on what international arbitration and ADR's future holds—in the private commercial arbitration and investor-state arbitration fields as well as in corporate environments and developing economies.
